

## Experienced Professionals

Sendero is seeking talented, experienced consultants to work in our Dallas and Houston offices. Sendero values the experience of seasoned professionals, especially those with a consulting background relevant to our offerings: Strategy, Business Management, Technology, and Human Performance. The experienced professionals we hire will take on a wide variety of roles, internally and with clients, leveraging their knowledge to help move our organization forward.

### Responsibilities

- Understand business problems, consider alternatives, provide recommendations, and determine and implement optimal solutions
- Apply industry, business and technical knowledge to achieve individual project expectations and project team objectives
- Consistently meet or exceed client expectations to enable future opportunities
- Build and maintain professional and personal relationships while proactively growing network
- Communicate opportunities to Sendero leadership
- Manage project delivery, scope, financials, plan, and tracking mechanisms
- Give recommendations and updates to senior leadership using appropriate channel, timing, and level of detail
- Facilitate a variety of meetings with diverse audiences
- Build and share knowledge and skills quickly and continuously to deliver on client commitments
- Participate in recruiting activities and provide input into hiring decisions
- Contribute to and lead internal projects and work groups
- Share information to build knowledge capital
- Effectively communicate an understanding of Sendero's business and Pathworks™ service offerings

### Qualifications

- Bachelor's degree required
- Proven work ethic and leadership experience
- Excellent communication (written and verbal) skills
- Strong interpersonal skills and ability to think critically
- Prior experience contributing to the success and growth of an organization and its people
- Consulting/project-based work experience preferred

**Note:** Level will be based on qualifications and years of relevant experience
